When I saw Newsweek's Elfin 11/27 he said he'd have his investigative report phone me that night or next a.m. Hasn t. Name Nicholas and I didn't get rest but sounded Italian,Greek. Right after this got call saying Nicholas Peak had recommended me for membership in OSS. Coincidence in name "Nicholas" and odd that I got no call at all, not even to ask if I had any leads if no interest in proposal, for I always have some leads I can t follow myself and have given them away. Do you know name Newsweeks investigator?...I find it mildly interesting that the OSS organization took the time for quotation of by-laws but did not enclose a copy, which I would take to be normal. And it is what I asked for. And if the org. is in NY only and the call was from NY, someone was willing to spend more money for a call than xeroxing the by-laws, if not printed, mimeographed, woyld have cast. HW 12/5/73
